

Get Online with GlobalTel!
Connect to the Internet using our GlobalTel Dial Up service...
Just follow the instructions below.

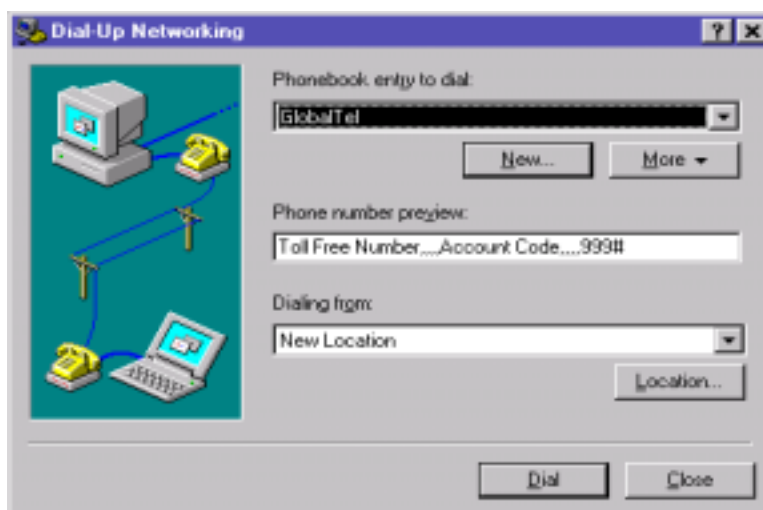

***These instructions are for a modem dial up connection.**

1. Set up your Dial Up Networking configuration
 - a. Click on the Start Button
 - b. Go to Programs
 - c. Go to Accessories
 - d. Go to Dial Up Networking
2. Click on the "New" button
3. Name the new phonebook entry "GlobalTel"
4. Click Next
5. Click on the box to the left of "I am calling the Internet"
6. Next:
 - ❖ Enter your Dial Direct Number followed by four commas
 - ❖ Your ACCOUNT CODE followed by three commas
 - ❖ Enter 999#.

Below is an example if dialing from the US: 18004302331,,,,123456,,,,999#

1. Click "Next"
2. Click "Finish"
3. Click "Dial"

4. Your modem should now dial into the GlobalTel System. Enter your account code and connect to the Internet Service provider.
5. You will be asked to provide a user name and password.

USERNAME: GTELWWW
PASSWORD: GTELWWW

6. To send an E-mail, you will have to change your outgoing mail server settings in your e-mail application's account settings. The outgoing mail server is: mail.evcom.net.

Note: GlobalTel Internet Service is available only where Dial Direct Service is provided.

The rate for the Internet Service is the same as Dial Direct.

For more information, please visit our website at www.globaltel.com → Rates → Dial Direct.

If you have any questions or concerns, please feel free to contact us.
