Dial Direct at Very Low Rates - For more information, please go to WWW.GlobalTel.COM

Rate 7C, Revised 1 November, 2001

Note: These rates and Dialing Instructions are for CREDIT CARD ACCOUNTS

All GlobalTel services are available to all customers who have opened an account. There are three services and Rate 7C, shown in this document applies to all three services. This first page describes the Direct dialing services from over 30 countries using the same 800 number in each country (UIFN, or Uniform International Free Number). The other services are CALLBACK service available in every country, and US 800 DIRECT DIAL service for calls from the US, Canada, Puerto Rico, US Virgin Islands, Guam and Western Samoa.

Dialing Instructions for UIFN 800 Service – All countries except Japan: Dial (country PREFIX) + 800-000-2468; Enter your GLOBALTEL ACCOUNT CODE; when prompted, dial your destination number. **EXAMPLE: If you are in Australia calling a friend in Italy.** You would dial (0011) + (800-0000-2468) + (your ACCOUNT CODE when prompted). You then dial the friend in Italy, using this dialing sequence: 011+ [39] + (city code) + local number. A WALLET CARD IS AVAILABLE WITH THESE DIALING INSTRUCTIONS.

Dialing Instructions for UIFN 800 Service – Japan: Same as above but the number is: +800-0001-2468

All Dial Direct calls must be dialed as international calls. The IAC (International Access Code) is the number dialed from each country to place an international long distance call. For example, in North America (The US & Canada) the IAC is 011, in Asian countries it is 001, and the common IAC for most European countries is 00. Japan, South Korea and a few other countries have more than one IAC.

FUNCTIONS AND FEATURES: The UIFN 800, USA 800, services offer the same convenient and money saving functions and features offered by GlobalTel's Callback service: Re-dial, Multiple Calls and 100 number Speed Dialing. Instructions for using these functions and features are provided in the Callback User Manual at <http://www.GlobalTel.com>.

SINGLE LEG RATES FOR THE 30+ DIAL DIRECT COUNTRIES: To calculate the rate per minute of your call, add the "DIAL DIRECT" rate assigned to the country you are calling from, to the rate of the country you are calling to as shown on RATE 7-C . **For example**, if you are calling from Australia to the US. Add The Australian "Dial Direct" rate of \$0.11 to the US rate of \$0.055 = TOTAL \$0.165 USD per minute. (NOTE: If you are not using rate 7C, use whatever rate plan you are on to calculate your DIRECT DIAL rate).
